Warrior's Gladiator winches continue to redefine winching with unmatched durability, performance, and style. A 2in1 wired/wireless rechargeable remote system makes winching easy from up to 50ft (15m) away. The Thermal Overload Protection System means no fear of overheating and damage when winching in extreme environments and during long, hard pulls.

- Complete with aluminium covered relocatable control plate, allowing for various winch mounting options.
- The motor and geartrain are completely shielded in full metal armour and we have gone the extra step to cover the control pack in sturdy aluminium for maximum protection.
- Durable aluminium cover, outdoor anti-corrosion powder coating and stainless steel mounting hardware provide an exceptional corrosion resistance of over 480 hours of salt-spray-testing.

Model	Line Pull	Motor	Gearing	Drum (DxL)	Cable (dia. x L)	Size	Weight
80FTA12-CAD	8000 lbs (3629 kg)	12v: 5.8hp 4.3kW	196:1	2.48 "x8.5 "	0.31 " x 82 '	22"x6.5"x10"	70.5 lbs
